## SUMMARY

A front-end developer specializing in **React.js** and **JavaScript**, with a focus on creating responsive and visually appealing websites. I leverage frameworks and libraries like Styled-components and Sass to deliver high-quality applications. A detail-oriented problem solver with excellent communication and time management skills, committed to delivering projects on time.

## PROJECTS

### React.js Web App

March 2023

#### Movie App

- Successfully integrated API to enable the website to provide users with real-time movie data updates.
- Utilized styled-components to create visually stunning and engaging websites with vibrant colors.
- Managed to release my application with ease thanks to Versel's powerful platform.
